

MATHEWS FOUND GUILTY.

Pitt & Scott's Dishonest Employee
Must Suffer.

He Robbed Uncle Sam by Manipulating Goods in Bond.

John Mathews was found guilty of conspiracy to defraud the Government out of customs duties by a jury in the United States Circuit Court last night. The maximum penalty is two years in the penitentiary and \$10,000 fine. Judge Benedict, in charging the jury, said the case was one of the most important, so far as the customs law was concerned, which has been before him in years. Assistant District Attorney Mott said this morning that he could only approximate the amount out of which the Government had been defrauded by Mathews and his fellow-conspirators, but he thought \$20,000 was not a low estimate. The import entry slips and other papers marked as exhibits in the case make a pile four feet square. Mathews was the American representative of the London firm of Pitt & Scott, an import and export house, which also conducted an express business. The Government claimed that Mathews, together with Thomas E. Jones and William Todd, systematically evaded the customs laws by changing the contents of boxes and packages while in bond, importing articles of great value and paying duty on the cheap goods which had been substituted for them. The frauds of which the Government had knowledge extended over a period of six months. Jones and Todd escaped.

BASEBALL CHAT.

It is only just to say that Stafford was out at the plate in the seventh inning last evening if ever a player was out. New York wants nothing it is not honestly entitled to. Such an unjust, dishonest decision as that of Umpire Swartwood in this case can only injure the game. Mr. Swartwood has little to commend him for the trying position of umpire, and the sooner he or Mr. Nicholas Young realizes the fact the better it will be for the sport. Mr. Swartwood's artful apparatus and his brain are not on good terms, and he says things with his mouth that his brain insists a moment later ought to have been said differently. He is in doubt all the time about balls, strikes and fouls, and is as full of argument as an aged spinster with a rebellious stomach. It doesn't tend to elevate the sport to have the umpire, the players and spectators bullying each other over questionable decisions. That is the case where Swartwood holds forth as umpire.

Umpire Swartwood perhaps goes on the principle that two wrongs may make a right. He called Westervelt out at third yesterday when the young pitcher had made a clever steal and slide. It spoiled a run for New York. Later, he called Stafford safe at the plate when Schriver caught him by at least a foot. That run won the game for New York in place of the one Westervelt might have made.

Irwin's "home" in the sixth yesterday was good for four bases only because Burke ran in on the ball instead of running out. But it was a dandy line hit and a hard one to judge.

New York has plenty of points to

pick up in base running. Why did Stafford stand as if paralyzed on first yesterday while the Colts were having fun with Farrell on the way to third?

The rooters like to see Farrell come to the bat in a tight place.

A snap-shot picture of "Pop" Anson trying to avoid getting his base on balls in the ninth inning of yesterday's game would be the star piece in a collection of baseball photos.

As for Umpire Swartwood's judgment on balls and strikes—well, there's nothing to add to what both teams and the spectators have had to say about it wherever he has been.

Saturday Half-Holidays.
R. Altman & Co. are again first in the field, announcing the Saturday half-holidays, which they commenced Saturday, June 2, and will continue during the months of June, July, August and September. Their store is closed at noon on Saturday during the four months named.

Indisputable.
Why spend \$1 for a bottle of medicine for a complaint when one box of Beecham's pills, costing only 25 cents, will cure nearly all known diseases? This is because constipation is the cause of nearly all ailments, and Beecham's pills cure constipation. A valuable book of knowledge mailed free, on request, by Dr. F. Allen Co., 355 Canal St., New York.

Seasonable Suits.

It isn't always economy

to buy the cheapest. It's often better to pay a little more and get a good article, then you get satisfaction and feel that you have received the worth of your money.

Take our parlor suits for instance, at \$35.00 to \$75.00, they're good value and will earn their pay.

Same way with our 98c. Brussels carpets—the carpet and the parlor suit would just about furnish a room nicely. Maybe you want credit, if so, you can have our book—free.
